1.

Nature of Operations and Going Concern

Scoop Media, Inc. (the “Company”) was incorporated in the state of Nevada on March 18, 2011. The Company has been in the exploration stage since its formation and has not commenced business operations.

The Company had previously been seeking to develop an Internet dating, review and information website. Since our inception, we have only engaged in planning activities for this business and did not engage in any operational activities. On September 30, 2013, Xpress Group, Ltd., a Hong Kong company now known as Heng Fai Enterprises, Ltd. (“Heng Fai”) purchased 5,500,000 shares of the Common Stock of our company representing approximately 68.7% of its issued and outstanding common stock from Yukon Industries, Inc. for \$55,000.00 payable in cash at closing.

Subsequent to the September 30, 2013 purchase of the Company’s common stock by Heng Fai, the Company determined to pursue a new strategy that revolves around the acquisition and management of real estate assets.

These financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. As of November 30, 2013, the Company has an accumulated deficit of \$103,570. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary debt or equity financing to continue operations, and the attainment of profitable operations. These factors raise substantial doubt regarding the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The accompanying unaudited interim financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in the Company’s most recent Annual Financial Statements filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim period presented have been reflected herein. The results of operations for the interim period are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosures contained in the audited financial statements for the most recent fiscal period, as reported in the Form 10-K, have been omitted.

2.

Related Party Transactions

As at November 30, 2013, the Company was indebted to the former President of the Company in the amount of \$380, which is non-interest bearing, unsecured, and due on demand.

As at November 30, 2013, the Company was indebted to a related company in the amount of \$5,514, which is non-interest bearing, unsecured, and due on demand.

3.

Subsequent Event

On December 19, 2013, the Company entered into an Agreement and Plan of Conversion with Global Medical REIT, Inc., a Maryland corporation (“the Corporation”) pursuant to which the Company will convert into the Corporation pursuant to Section 92A.195 of the Nevada Revised Statutes (the “NRS”) and Title 3, Subtitle 9 of the Annotated Code of Maryland (the “ACM”) whereby each shareholder of the Company will exchange one (1) share of common stock, \$0.001 par value per share, of the Company into one (1) share of common stock, \$0.001 par value per share of the Corporation.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto contained elsewhere in this Report. The following discussion and analysis contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ significantly from the results, expectations and plans discussed in these forward-looking statements. See “Cautionary Statement on Forward-Looking Information.”

Overview

We were incorporated in the state of Nevada on March 18, 2011. On September 30, 2013, Xpress Group, Ltd., a Hong Kong company now known as Heng Fai Enterprises, Ltd. (“Heng Fai”) purchased 5,500,000 shares of the Common Stock of our company representing approximately 68.7% of its issued and outstanding common stock. On December 10, 2013, Heng Fai purchased an additional 2,000,000 shares of our common stock from various parties in private transactions for an aggregate of \$12,820 or \$0.00641 per share. Heng Fai owns an aggregate of 93.7% of our outstanding common stock. On September 30, 2013 the Company’s board of directors appointed Conn Flanigan as its Chief Executive Officer, Chief Financial Officer and a director to hold office until the next annual meeting of shareholders and until his successor is duly elected and qualified or until his resignation or removal.

Prior to Heng Fai’s acquisition of a controlling interest in our company, our business objective was to develop a dating, review and information website. Since our inception, we have only engaged in planning activities for this business and did not engage in any operational activities.

Subsequent to Heng Fai’s acquisition of a controlling interest in our company, we have determined to pursue a new strategy that revolves around the acquisition and management of real estate assets. We intend to acquire real estate assets in the healthcare industry, which may include the real estate of hospitals, medical centers, nursing facilities and retirement homes. This strategy is conducive to a more favorable tax structure whereby we may qualify and elect to be treated as a real estate investment trust, or REIT, for U.S. federal income tax purposes. In order to qualify as a REIT, a substantial percentage of the company’s assets must be qualifying real estate assets and a substantial percentage of the company’s income must be rental revenue from real property or interest on mortgage loans. We must elect under the U.S. Internal Revenue Code to be treated as a REIT. Subject to a number of significant exceptions, a corporation that qualifies as a REIT generally is not subject to U.S. federal corporate income taxes on income and gain that it distributes to its stockholders, thereby reducing its corporate level taxes. The vast majority of U.S. REITs are incorporated or formed in Maryland and we believe that reincorporating in Maryland will put our company in the best position to raise additional capital and grow our business.

In order to reincorporate in Maryland, we have entered into an Agreement and Plan of Conversion (the “Agreement”) between our company and Global Medical REIT, Inc., a Maryland corporation (“Global Medical”) pursuant to which we will convert into Global Medical effective as of January 15, 2014 whereby each shareholder of our company will exchange one share of our common stock, \$0.001 par value per share into one share of common stock, \$0.001 par value per share of Global Medical (the “Conversion”). See Item 5. Other Information – Conversion. Neither we, nor Global Medical has elected to become a REIT; however, we plan to cause Global Medical to do so in the future.

We are currently on a fiscal year ending August 31. We have defined various periods that are covered in this report as follows:

- “fiscal 2013” – September 1, 2012 through August 31, 2013
- “fiscal 2012” — March 18, 2011 (inception) through August 31, 2012.

Results of Operations

The following comparative analysis on results of operations was based primarily on the comparative financial statements, footnotes and related information for the periods identified below and should be read in conjunction with the financial statements and the notes to those statements that are included elsewhere in this report.

The results discussed below are for the three months ended November 30, 2013 and 2012. For comparative purposes, we are comparing the three months ended November 30, 2013 to the three months ended November 30, 2012.

Revenues

We had no revenue for the three months ended November 30, 2013 and 2012.

Operating expenses

Operating expenses during the three month period ended November 30, 2013 decreased \$19,955 compared to the same period of fiscal 2012. This decrease is primarily attributable to lower general and administrative expenses in the current period as we had minimal operations leading up to the sale of a controlling interest in our company as discussed above.

Net Loss

Our net loss during the three month period ended November 30, 2013 decreased \$19,955 compared to the same period of fiscal 2012. This decrease is attributable to lower operating expenses discussed above.

Liquidity and Capital Resources

Liquidity is the ability of an enterprise to generate adequate amounts of cash to meet its needs for cash requirements. As of November 30, 2013 our working capital deficit amounted to \$23,570, an increase of \$7,665 as compared to \$15,905 as of August 31, 2013. The increase is largely due to amount due to related parties. Working Capital deficit included cash of \$3,466 offset by total liabilities of \$27,036.

Net cash used in operating activities was \$5,567 during the three months ended November 30, 2013 compared to \$27,620 in the same period in 2012. The decrease in cash used in operating activities is primarily attributable to a reduction in our net loss and partially offset by an increase in accrued liabilities.

Net cash provided by financing activities during the three months ended November 30, 2013 was \$5,514 compared to \$25,000 in the same period in 2012. The decrease was primarily as a result of the absence of proceeds from issuance of common stock in 2012 partially offset by an increase in proceeds from related party debt to fund our working capital needs partially.

Our continued operations and expansion are dependent upon our ability to obtain additional working capital. Although Heng Fai, our controlling shareholder may lend us funds or invest in our securities for our working capital needs, we have not entered into any agreement with Heng Fai for any future loans or investments in our company. In the event we are unable to raise capital needed for our proposed business, we will have to seek additional financing, and no assurances can be given that such financing would be available on a timely basis, on terms that are acceptable or at all. Failure to obtain such additional financing could result in delay or indefinite postponement of our proposed business which would materially adversely affect our business, results of operations and financial condition and threaten our financial viability.

Going Concern

Our financial statements have been prepared assuming that we will continue as a going concern which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Our continued losses and negative operating cash flows raise substantial doubt about our ability to continue as a going concern.

Our primary need for cash during the next twelve months is to fund our operating costs and our proposed real estate business. At November 30, 2013, we had continued losses from operations since inception, and had both stockholders' and working capital deficiencies of \$23,570. We believe we will continue to incur losses and negative cash flows from operating activities for the foreseeable future and will need additional equity or debt financing to sustain our operations and complete acquisitions until we can achieve profitability and positive cash flows, if ever. Based on these factors, our auditors included a "going concern" qualification in their auditors' report for the year ended August 31, 2013. Such "going concern" qualification may make it more difficult for us to raise funds when needed. No assurance can be given that financing will be available when needed or, if available, such financing will be on terms beneficial to us.

Related Party Transactions

As at November 30, 2013 and August 31, 2013, we were indebted to our former President in the amount of \$380, which is non-interest bearing, unsecured, and due on demand.

As at November 30, 2013, we were indebted to a related company in the amount of \$5,514, which is non-interest bearing, unsecured, and due on demand.

Recent Accounting Pronouncements

There are no recent accounting pronouncements that are expected to have an effect on the Company's financial statements.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect or change on the Company's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term "off-balance sheet arrangement" generally means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with the Company is a party, under which the Company has (i) any obligation arising under a guarantee contract, derivative instrument or variable interest; or (ii) a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Smaller reporting companies are not required to provide the information required by this item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act that are designed to ensure that information required to be disclosed in our reports filed or submitted to the SEC under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms, and that information is accumulated and communicated to management, including the principal executive and financial officer as appropriate, to allow timely decisions regarding required disclosures. Our principal executive officer and principal financial officer evaluated the effectiveness of disclosure controls and procedures as of November 30, 2013 pursuant to Rule 13a-15(b) under the Exchange Act. Based on that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective to ensure that information required to be included in our periodic SEC filings is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms.

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected.

Changes in Internal Control over Financial Reporting

No changes were made to our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, the Company may become involved in litigation relating to claims arising out of its operations in the normal course of business. We are not involved in any pending legal proceeding or litigation and, to the best of our knowledge, no governmental authority is contemplating any proceeding to which we are a party or to which any of our properties is subject, which would reasonably be likely to have a material adverse effect on the Company.

None.

Item 3. Defaults Upon Senior Securities.

As a result, our stockholders will automatically become a stockholder of Global Medical REIT Inc. and cease to be a stockholder of the Company. After the Conversion takes effect, the surviving corporation will be a Maryland corporation operating subject to the requirements of the MGCL and Global Medical REIT Inc.'s Articles of Incorporation and Bylaws.
